ArcTitan

Email Archiving for Office 365

Getting the most out of Office 365

ArcTitan will:

» Streamline your migration to Office 365, empowering all users with simpler, faster access to email and future-proof your move to the cloud.

» Provide enriched searching, making Outlook the best place to find any email whenever you need it!

What will you do with your existing emails?

» From day one on MS Office 365 your users will still want access to their old email. Making this available means either importing data to the cloud, or running two email systems in parallel.

» ArcTitan gives you a better way to preserve all your emails and make them available to all users, via Outlook. ArcTitan provides a simple and effective way to manage your move to the cloud, without disrupting email access for your users.

How will you manage people who leave your organisation?

» Leavers' emails are retained, no user licence required, guaranteeing cost effective access to all legacy email.

» ArcTitan's simple delegated email access function is the perfect solution to deal with leavers' email.

How does ArcTitan enhance Office 365?

Boost Employee Productivity

Eliminate PST Files

Superior Findability

GDPR Compliance

» ArcTitan works seamlessly with MS Office 365 to enhance the end-user email experience. Offering the fastest, simplest and most advanced search functionality on the market today, ArcTitan enables the enduser to find any email in seconds, without leaving Outlook.

» ArcTitan also provides a sophisticated and fast eDiscovery tool for authorised privileged users. eDiscovery searches are closely monitored and audited and can provide evidential weight for legal and HR issues - when your business needs them most. For mobile users, ArcTitan provides email access to users on the move with limited information risk to your organisation as no data is stored on the mobile device.

» Where compliance matters, ArcTitan's tamper-evident journal archive provides the guarantee that your archive is complete and accurate, removing the risk of end user modifications, whether accidental or malicious.

» ArcTitan delivers real business benefits and return on investment, making your email service a cost-effective business asset.
